

Advanced Solutions of Microsoft SharePoint Server 2013:

Overview

This Advanced Solutions of Microsoft SharePoint 2013 consists of a 3 day, trainer-led course that aims to teach delegates how to configure and manage an environment using Microsoft SharePoint Server 2013. This course will also provide candidates with best practice guidelines on how to maximise the use of an Exchange Server.

As an expert level training course, the course will cover a wide range of topics and candidates will be expected to have prior knowledge of a wide range of areas. The Knowledge Academy is a Silver Partner of [Microsoft](#), therefore all of our training courses are fully accredited by Microsoft.
